Keeping the outdoors affordable

Bicycle Repair & Adjustment

Put your bike safely back on the road

Our expert technicians can have you rolling in no time

Attractive pricing

Open 10:00 – 6:00 Mon-Sat

Has your bike been sitting in the basement or garage for years? Maybe you have been riding the rubber off the tires and your bike needs a little TLC. You know it could use a good tune up.

Now that you have decided, GYGO is the place to get your bicycle restored. When you bring your bike to us we will give it a quick inspection and give you a free estimate on repair. During this time, we'll be able to see if things like brake pads, tires and cables etc. are needed.

Below is a checklist of adjustments made during a tune up and typical repairs. You are charged only for actual labor and materials required. There are no shop minimums, standard repairs, or automatic charges. No surprises!
